

## ADVENTURE IN THE LOST JUNGLE

Alan and his sister Annia are on one of their intrepid adventures: they are on a quest to find the Jungle Temple, one of the wonders of the world that very few have been lucky enough to see. Famous for the giant statues of heads that guard the site, the siblings have no hesitation in trying to discover it.

While exploring the area, they fall into a trap in the Jungle - Alan and Annia are trapped! Fortunately, the explorers accompanying the siblings on their adventure have a part of the map in their possession and, following the clues it hides, they will be able to complete it and get to

The explorers set off, starting in the Pacific area, the starting point. Once there, they find the second piece of the map submerged at the bottom of the lake, which leads them to the Havana area, the most colourful place in the Jungle. In one of their blue huts, they pick up the third map piece - only one more to go! This piece leads them to the Bali area and in one of their tikis they find the missing piece - they have all the pieces!

The solved map shows them the exact location of the trap in which Alan and Annia are being held. When they arrive, they realise that the legendary statues of heads stand before them and, trapped in them, are the siblings. Without expecting it, they have found the Temple of the Jungle!

The explorers climb up to get them and release them. The only way down is to slide down the slides, which lead into the tropical waters of the pool. At last they are all together to explore further.

Are you ready to discover the fascinating places hidden in the Lost Jungle? Alannia Costa Blanca awaits you!
