

ADVENTURE ON THE ISLAND OF THE PIRATE CHILDREN

In a place in the Mediterranean there is an island governed by children, where they make their own rules. That island is Alannia Guardamar. Everything was fun until one day Captain Pata Palo's ship, coming from Tabarca, docks with the evil intention of stealing the treasure hidden there by the children.

The children seek reinforcements and call in Alan and his sister Annia to fight Captain Peg Leg and his cabin boys, who will not rest until they have their way.

Alan and Annia land on the island with their rocket to help the children and, together with them, build the Nassau Shelter to keep them safe. Meanwhile, the cruel invaders take over the island, turning everything upside down in their search for treasure.

Seeing the rapid advance of the pirates, the children release some dangerous hippos and crocodiles into the Bay, as there is a large skull hiding the precious booty. But this is not enough to stop the Captain from confronting the savage animals. In his fight against the crocodile, the crocodile manages to tear off his wooden leg and the children take the opportunity to catch him.

Thus they achieve their surrender and expel Captain Pata Palo and his cabin boys from the island, but not before keeping their ship, thus becoming the Island of the Pirate Boys. Are you ready to board the Alannia Guardamar? ALL ABOARD!
